[www.ovidiofootwearandorthoses.com.au](http://www.ovidiofootwearandorthoses.com.au)

At **The International Foot and Shoe Clinic** we are able to treat conditions such as back pain, sore feet, heel pain, flat feet, high arches, bunions, weak and collapsing ankles, differences in leg length and so on, *from the feet up*.

Instant treatment is usually in the form custom made Medical Grade (Orthopaedic) footwear with orthotics built in or Orthoses/Orthotics fitted in the clients' general footwear. Rather than just treating the symptoms, our treatment is able to correct the cause of the condition, as well as the symptoms. Most private health funds pay towards these treatments.

Please feel free to contact us if we can be of service to you.

Yours Sincerely,

Ovidio D'Alessandro  
Orthotist and Medical Grade footwear practitioner
